

Shutter speed tester

You need:

- phototransistor BPW40 (this is a very common phototransistor in Europe)
- resistor 4000 Ohm (anything between 3800 – 4200 Ohm)
- capacitor 4300 pico farad (anything between 4100 – 5000 pico farad)
- microphone plug (mono) for sound card
- 1.5 V battery AA and battery holder
- laser pointer handheld as cheap as possible
